KAR Holdings, Inc.
EBITDA and Adjusted EBITDA

EBITDA and Adjusted EBITDA

EBITDA and Adjusted EBITDA, as presented herein, are supplemental measures of the Company's performance that are not required by, or presented in accordance with, generally accepted accounting principles in the United States ("GAAP"). They are not measurements of the Company's financial performance under GAAP and should not be considered as alternatives to revenues, net income (loss) or any other performance measures derived in accordance with GAAP or as alternatives to cash flow from operating activities as measures of the Company's liquidity.

EBITDA is defined as net income (loss), plus interest expense net of interest income, income tax provision (benefit), depreciation and amortization. The Company calculates Adjusted EBITDA by adjusting EBITDA for the items of income and expense and expected incremental revenue and cost savings as described in the Company's \$1,865 million credit agreement. Management believes that the inclusion of supplementary adjustments to EBITDA applied in presenting Adjusted EBITDA is appropriate to provide additional information to investors about one of the principal internal measures of performance used by the Company. Management uses the Adjusted EBITDA measure to evaluate the performance of the Company and to evaluate results relative to incentive compensation targets. Adjusted EBITDA per the Credit Agreement adds the pro forma impact of recent acquisitions, if applicable, to Adjusted EBITDA. This measure is used by the Company's creditors in assessing debt covenant compliance and management believes its inclusion is appropriate to provide additional information to investors about certain covenants required pursuant to the Company's senior secured credit facility and the notes. EBITDA, Adjusted EBITDA and Adjusted EBITDA per the Credit Agreement measures have limitations as analytical tools, and should not be considered in isolation, or as a substitute for analysis of the results as reported under GAAP. These measures may not be comparable to similarly titled measures reported by other companies.

The following table reconciles EBITDA and Adjusted EBITDA to net income (loss) for the periods presented:
